**“Outstanding !”.....Have been to
Cebaco Bay twice and all I can say**

'XTREME' ...a classic 31' Bertram, fully renovated with the best of electronics, and repowerf with twin 240 HP Yan Mar Diesel engines. She sports a comfortable, enclosed cabin with private head. XTREME is a proven fish raiser!

Our Mothership, the Journey Bay, is an incredible vessel. She originally utility boat, supply oil rigs in the Gulf of Mexico. We converted her to a Sportsfishing Mothership on 2005 and she has been serving CEBACO Bay ever since.

is this is one of the best experiences I have had in my 20 years of fishing Panama. From first class accommodations, great food and fantastic boats, I wouldn't hesitate to book a trip with this outfit. Hanibel Bank is a long trip from most operations, but Cebaco is located on opposite side of Coiba island and offers a unique uncrowded approach to fishing. Not only is Hanibel accessible, but the Aguja reef is close by. Great inshore fishing as well. Don't hesitate to book with Jim and his crew.

You won't regret it.....Visited March 2016
